

Additional Information

For: Low Pressure Female Check Valves

Fields of Use

- Water
- Hot water
- Compressed air
- Oils
- Soda acetylene
- Glycerin
- Gasoline
- Carbon fuel
- Derivatives
- Gas

Installation

In any position e.g. Vertical, horizontal or oblique.

Design Feature

- Very low head loss due to the streamlined design
- High flow capacity
- Perfect seal at both low and high pressures
- Silent operation as well as no water hammering
- High quality construction therefore assuring long service life
